

# Welcome to 2<sup>nd</sup> Grade!

## Summer Work 2024

### A message from Mrs. Koch

Welcome to Second Grade! As we enter summer, we want to continue education through exploration, reading, and relaxation. It is good to have a program for the summer months so that students maintain 1<sup>st</sup> grade knowledge and grow in wonder and excitement for adventure. By keeping a schedule, children understand expectations and grow in virtue. Start the day with routine and the summer will be a positive experience.

Strongly recommended: Summer Bridges  
Activity Book Grade 1-2

Can be purchased at  
Amazon:

<https://www.amazon.com/Summer-Bridge-Activities%C2%AE-Grades-Activities/dp/1483815811>

### Reading:

Students should read 15 minutes/day Mon-Fri and complete the reading log (please write the date, title, and initial) and color the shapes for each day. This is due on the 1<sup>st</sup> day of school and will count as a reading grade.

Visit the local library! Sign up for the Summer Reading Program. There are so great summer events planned at your library.

### Math:

Students should know math facts and practice them Mon-Fri with flash cards (addition and subtraction 1-10) and on paper. Complete attached math sheets and turn in.

Please use the XtraMath login to have students work at least 3 times/week on these math facts. I will be able to see and monitor their progress, and they will grow in math confidence!

### Writing:

Students need to write a book report for their favorite summer book. Give the title and author. Tell me what the book was about and why they liked it. (3-5 sentences) This will show me their writing skills and tell me their reading interests. This is due on the first day of school.

# JUNE

Color the sun every time you read a book.

# JULY

Color the stars every time you read a book.

# AUGUST

Color the apple every time you read a book.
